8.5. General description of Information Security Measures to be implemented by the responsible party to ensure the confidentiality, integrity and availability of the information

- 8.5.1. We undertake an analysis of the risks presented by our processing and use this to assess the appropriate level of security we need to put in place.
- 8.5.2. When deciding what measures to implement, we take account of the state of the art and costs of implementation.
- 8.5.3. We have an information security policy and take steps to make sure the policy is implemented. We also have additional policies and ensure that controls are in place to enforce them.
- 8.5.4. We make sure that we regularly review our information security policies and measures and, where necessary, improve them.
- 8.5.5. We have put in place basic technical controls such as those specified by established frameworks.
- 8.5.6. We understand that we may also need to put other technical measures in place depending on our circumstances and the type of personal data we process.
- 8.5.7. We use encryption and pseudonymisation where it is appropriate to do so.
- 8.5.8. We understand the requirements of confidentiality, integrity and availability for the personal data we process.
- 8.5.9. We make sure that we can restore access to personal data in the event of any incidents, such as

by establishing an appropriate backup process.

- 8.5.10. We conduct regular testing and reviews of our measures to ensure they remain effective, and act on the results of those tests where they highlight areas for improvement.
- 8.5.11. Where appropriate, we implement measures that adhere to an approved industry code of conduct.
